

# WE ARE ON THE BRINK OF A CANCER REVOLUTION

## FOUNDER'S STORY

Approximately 14.1 million new people are diagnosed with cancer each year, and 10 million people worldwide die from it. This war on cancer is not about statistics — it's personal for me.

At 22 years old, I became the primary caregiver to my aunt and uncle, Ora Lee Smith and General Lee Smith, who were the only parents I knew. My aunt told me she would rather die than experience the side effects of chemotherapy and radiation. My uncle went to the brink of death, experiencing a 150-pound weight loss, hair loss, long-term diarrhea, and skin distortions. I witnessed the horrors of both cancer and cancer treatments, and I knew there had to be a better way.

In memory of my loved ones, I developed a cancer-killing technology without observable side effects and founded a nonprofit foundation to keep that treatment affordable and accessible for all.

What continues to motivate me are the cries for help when someone receives a terrifying diagnosis or when they're told "there is nothing else we can do." With our technology developed, there *is* something we can do—and with your support, we can fund human trials and save lives.

## About Dr. Hadiyah-Nicole Green, Medical Physicist

- One of the first African American women to earn a Ph.D. in Physics
- Awarded \$2.3 million by the U.S. Dept. of Veterans Affairs to develop cancer therapies
- Associate Professor, Morehouse School of Medicine, Department of Surgery
- Prior Top Secret Security Clearance for Department of Defense
- One of the 100 most influential African Americans in the US – *EBONY* Magazine and *The Root*
- Named Top 30 Under 40 in Health Care by *Business Insider*
- Named one of 100 Women of the Century – *USA Today*

## OUR ANSWER TO CANCER

With more than 10 years of interdisciplinary research experience, Dr. Hadiyah-Nicole Green invented a Laser-Activated NanoTherapy (LANT) to target and destroy cancerous cells while preserving healthy cells. Using lasers and nanotechnology, this patent-pending therapy has been proven to completely eliminate tumors in laboratory mice in just 15 days after a SINGLE 10-MINUTE treatment – without any observable side effects.

Published in *Int J Nanomedicine* vol. 9 5093-102, 5 Nov. 2014

- ~100% tumor regression in 15 days
- A single 10-minute laser treatment
- No observable side effects

This treatment is designed as a multi-cancer platform therapy and has implications for a variety of solid tumor types, including breast, prostate, skin, colorectal, brain, and a variety of inoperable, chemo-resistant cancers. We are ready to begin human clinical trials and obtain FDA approval, with the support of our team of oncologists.

## OUR FOUNDATION

Dr. Hadiyah-Nicole Green founded the Ora Lee Smith Cancer Research Foundation in honor of her late aunt, Ora Lee Smith. This foundation is on a mission to change the way cancer is treated and reduce cancer-patient suffering by providing care that is accessible, affordable, and effective.

Our goal is to bring our new, physics-inspired medical advancement out of the laboratory and into humans while ensuring it remains affordable and accessible for all. To accomplish our goals, we are using a 501(c)(3) nonprofit business model and tax-deductible donations, partnerships, and sponsors to raise funds. Your support will directly help us conduct human clinical trials in as little as 12 months of raising \$10 million as a first step in a \$100 million+ endeavor.

### Success Snapshot:

- ~\$3M Raised, mostly gifts under \$100
- Guidestar and Charity Navigator
- Grants – Google, Amazon & Salesforce

### Collaborations:

- The Adv. Tech. Development Center
- The Center for Disruption & Innovation

### Employee Matching Programs:

- AT&T
- GE
- HP
- IBM
- Apple
- Boeing
- Soros
- Pepsi
- YourCause
- McKesson
- Microsoft
- Benevity
- Bank of America
- Network for Good
- Duke Energy
- Johnson & Johnson
- PayPal Giving Fund
- Schwab Charitable

## Join Team Ora Lee!

Make the Ora Lee Smith Cancer Research Foundation your charity of choice! Your support and donations will help fund human clinical trials. Make us a part of your legacy. Name us in your estate plans and insurance policies. Honor a loved one with your service. Sign up to volunteer at [OraLee.org/volunteer](https://OraLee.org/volunteer). Follow and engage with us on social media @DrHadiyahGreen and @OraLee.Org.

## Ways to Support

- Become a monthly donor at [OraLee.org](https://OraLee.org)
- Raise funds and/or host a fundraiser
- Become a volunteer, sponsor or partner
- Email [info@OraLee.org](mailto:info@OraLee.org) for details.

## Ways to Give

- Go to [OraLee.org/donate](https://OraLee.org/donate)
- CashApp or Venmo [\\$OraLeeFoundation](https://OraLeeFoundation)
- [OraLee.org/stocks](https://OraLee.org/stocks) | [OraLee.org/crypto](https://OraLee.org/crypto)
- Mail: PO Box 11184, Atlanta, GA 30310
